I suggest you tell BERS exactly what you told me. If the tribe doesn't want the sub doing work on their site, then we have to comply.

Hi Lynn,

I have a question related to subcontractors that affects my Tower Standard site. The LDF tribal staff has sent me an e-mail stating that REI (the sub chosen by BERS) is not welcome to conduct sampling at this site because of past performance issues (this performance was under a state program and not contracted by the tribe), and what the tribe considers a conflict of interest because they were the contractor for the site owners during past investigations at this site.

What paperwork would I need from the tribe to exclude them from doing my sampling? Or is it impossible to exclude them under our contract?

Thanks. Please call if you need any clarification or more information.
